

SteadyPower

Replace first line (below) with first paragraph (further below the screenshot of website.)

A single-install, cost-effective solution, protecting your entire home from surges and spikes while optimizing electrical efficiency.

- ⚡ **Power conditioning:** Conditions incoming power to improve efficiency and reduce line noise
- ⚡ **Electronics protection:** Minimizes static on TVs/radios and protects sensitive electronics and appliance motors
- ⚡ **Surge protection:** Shields appliances from surges, spikes, and brownouts
- ⚡ **Eco-friendly:** Maintenance-free and eco-friendly
- ⚡ **Energy savings:** Can lower energy bills by 5–35%, depending on usage

Reduce space between and increase font here. Move to match \$10,000...\$25,000 Bullet List below.

Replace first line (below) with first paragraph (further below the screenshot of website.)

~~**Installation:** Install by a licensed electrician to your main electric panel.~~

~~**Warranty:** 10-year warranty and \$25,000 insurance policy if electric surge harm comes to your devices.~~

Replace first line with: **SteadyPower** is a whole house surge protector.

- 10-year warranty
- \$25,000 insurance policy if electric surge causes harm to your devices.

SteadyPower is designed to ‘clean up electricity’ – removing the static that disrupts efficiency in your device and appliance motors. Healthier for your devices and appliances, extending their life and health.

SteadyPower users have experienced a 5-35% savings on their electric bill. Removing electric chaos from your electric supply to devices and appliances extends their life. Run the math and you will see it pays for itself (long) before the warranty expires.

Useful for lightning surges, browning or brown-out areas. The security provided with whole home protection from electrical surge or browning – PRICELESS!!!
